
SkilledVilla

LEARN · SKILL · GROW

Master your mind.

Understand the market.

A trading education programme built on knowledge,
discipline and risk management. Not tips. Not guesswork.

Protect your capital. Respect the risk.

What you will learn

01 Stock Market Basics

How the market works: exchanges, SEBI, depositories and market types.

02 Technical Analysis

Candles, trends, support and resistance, breakout and retest, chart patterns.

03 Risk Management

Protect your capital with stop-losses, position sizing and risk-reward.

04 Forex & Crypto

Understand how trading works beyond the stock market.

05 SMC

Smart Money Concepts and the Accumulation-Manipulation-Distribution cycle.

06 Psychology

Build the discipline and mindset that consistent trading needs.

07 Strategies & Tools

Learn to build a rule-based approach and use the right tools.

08 Indicators & Usage

What indicators show, and how to use them without over-relying on them.

09 Event-Based Trading

How to approach the market around news and major events.

10 Ways to Earn

The different ways people participate in the markets.

11 Backtesting & General

Test your ideas on past data before risking real money.

12 Personal Experience

Real lessons from the mentor's own market journey.
